<b>SHALOM LEARNING</b>	<b>JEWISH LIFE VOCABULARY</b>
<p>This values-based curriculum helps children develop a positive Jewish identity. The pluralistic curriculum is based on values we all share, like “Using your inner strength to do what’s right” and “Taking responsibility for your actions.” Twenty-eight lessons provide students with stimulating, interactive, hands-on activities to explore and engage with Jewish Values and Holidays. Students also learn to emulate a Jewish author or artist whose work relates to the lesson.</p>	<p>Jewish Life Vocabulary (JLV) is a collection of Hebrew words or phrases that increase one’s connections to the Jewish people, traditions, culture and life. Chances are that you already sprinkle Jewish Life Vocabulary into your speech - “Mazal tov! What a great accomplishment!” or “We’re heading to t’fillah. Jaime, could you grab the siddurim?” Greetings &amp; exclamations, value words, ritual objects, prayer &amp; worship terminology, life cycle, synagogue, community. This is a way of building depth and tradition into the general environment on a weekly basis, with words of the day and week, and referring to these items in Hebrew in classes and school programs.</p>
<b>HEBREW THROUGH MOVEMENT</b>	<b>COMMUNITY CELEBRATIONS</b>
<p>Hebrew through Movement is a language acquisition strategy in which students learn Hebrew by hearing and responding to Hebrew commands. Hebrew Through Movement introduces Hebrew in a playful and meaningful way, creating a positive first link between children and Hebrew. It is supported by the latest brain research on learning, providing an aural foundation for Hebrew that opens the door to more facile Hebrew decoding and reading.</p>	<p>The students in the younger grades will participate in our community celebrations -- fun presentations for the holidays -- along with all the older grades, by contributing dances, songs, and skits. These are delightful ways of incorporating and entertaining the community, both families and congregational members. It also serves as a vehicle for bolstering student learning and the quality of their experience, and for demonstrating what they have learned.</p>

Twenty-eight complete lesson plans provide students with stimulating, interactive hands-on activities to explore and engage with these Jewish values and holidays.
